

Hi digital ProfiTicket, hello Germany.

- ✔ From 1 May 2023 as Deutschlandticket
- ✔ Digital ticket subscription on your smartphone
- ✔ Monthly cancellation, no need for a change of ticket
- ✔ The easy way to travel across Germany
- ✔ Much cheaper

This is how easy it is to get your ProfiTicket as a Deutschlandticket on your smartphone:

1 Your employer will inform you as soon as everything is ready.

2 You will be informed via e-mail, intranet message or a notice on the notice board with a QR code or link.

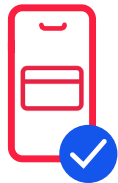

3 You can access the login screen via the QR code or the link.

4 When you are there, you can open a personal user account with your e-mail address and a password. Make sure that the e-mail address is accessible on the smartphone with which you want to use the ticket.

5 After you have done that, you will immediately receive an e-mail (don't forget to check your spam folder). You can confirm your user account simply by clicking the link.

6 Now you can fill in your request for the ticket in your account. You set the start date yourself. Finally, click on "Request subscription".

7 Your request will then be checked by your company. That may take up to 5 working days. The ticket is inactive until the start date and will automatically be activated from the first day of validity. Your ticket will be automatically renewed on a monthly basis. Let's go.

8 You can use the ticket as a WebTicket, as a link on the home screen or in the iOS or Android wallet. The wallet is already preinstalled in iOS (Apple). Android users may still need to download Google Wallet.

9 The ticket is issued on a monthly basis and renews automatically after the currently displayed month if you use Google or Apple Wallet and have activated "automatic update".

During a ticket inspection, simply show the QR code and your photo ID. We wish you a enjoyable trip!
