

## GKA plus and prices

### From 100 participants with a contribution to employees' fare money

This is how the GKA plus variant works: A company applies for at least 100 ProfiCards. The employer subsidizes each ProfiCard user with a monthly contribution of at least 13.86 euros on top of their salary. The ProfiCard fare money is deducted at source from the employee's salary.

From 100 participants in your company upwards you conclude the ProfiCard as a direct contract with HVV-Großkundenbetreuung (Corporate Client Subscription Service). If your company logo is printed on every ProfiCard, the card becomes an even more attractive tool for your employer brand management. And by the way: this service is free of charge.
