

GKA 50

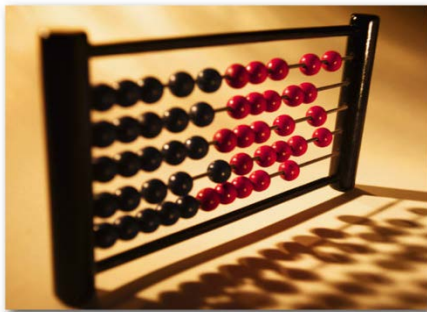

For large companies without a contribution to employees' fare money.

Prerequisites for participation: at least 50 % of the workforce of a company participate and apply for at least 100 cards.

“50 %” does not mean “half the workforce”.

When calculating the participant figure of 50 %, certain groups of employees are “deducted” pro rata, e.g.:

- part-time workers
- employees who live outside the HVV area
- field staff who have the use of a company car
- employees who start or finish work at times outside the times when HVV services run
- disabled persons with a degree of disability of 50 % or more
- employees excluded from the programme by the company (e.g. temporary workers)

An example of a calculation? By all means.

Let's suppose that your company has 500 employees, of whom 100 can be “deducted” because they belong to the groups listed above. This leaves 400 people working for you, and at least 50 % of those must apply for a ProfiCard, i.e. at least 200 employees.

We can take the job of calculating the number of participants off your hands for you – simply get in touch with us.

If your company logo is printed on every ProfiCard, the card becomes an even more attractive tool for your employer brand management. And by the way: this service is free of charge.
